Nature and Objective of Plan

This is a single Premium investment-linked insurance plan that is designed to meet Your wealth accumulation needs. It matures on the Policy anniversary immediately before the Life insured attains 100 years old. This plan provides protection against death and Terminal illness of the Life insured during the policy term.

This plan allows You the flexibility to choose from a list of Packaged funds for investment. This plan is subject to the market performance of the assets of the ILP sub-funds. Your investment returns are subject to investment risks, including the possible loss of the principal invested. The value of the units in the Packaged fund may fall as well as rise depending on economic / market conditions.

This is a guaranteed issuance policy which means that We issue this policy without asking for Your health declaration or medical checks at the time of Application.

Plan Benefit

Death Benefit

Upon death of the Life insured while the policy is in force, the death Benefit payable is the higher of:

- a) the Account value; or
- b) 105% of the single Premium paid and 105% of the total Top-up(s) less any partial withdrawal(s); less any amounts owing to Us.

When We make this payment, the policy ends.

Account value is the value of all the units in Your policy less any applicable fees and charges.

Terminal Illness (TI) Benefit

If the Life insured has a Terminal illness while the policy is in force, We will pay the death Benefit in one lump sum.

The maximum aggregate amount payable is Five Million Singapore Dollars (S\$ 5,000,000) per Life insured for all policies and riders issued by Us with Terminal illness Benefit.

If the Terminal illness Benefit payable is lesser than the death Benefit, the death Benefit will be automatically reduced by the amount paid for the Terminal illness. The policy remains in force and the remaining death Benefit is the original death Benefit less the amount paid for Terminal illness. If the Terminal illness Benefit payable is the same as the death Benefit, the policy ends when We make this payment.

Terminal illness is the conclusive diagnosis of an illness that is expected to result in the death of the Life insured within twelve (12) months. This diagnosis must be supported by a specialist and confirmed by the Company's appointed Doctor. Terminal illness in the presence of HIV infection is excluded.

Surrender Benefit
